

PVC Strip Curtain Systems

Union Industries not only manufacture the most reliable High Speed Industrial Doors in the world and the most robust Industrial Curtains but also supply a great range of Strip Curtains and bespoke Strip Curtain Systems – the most cost effective solution for internal and external doors and for segregating areas inside factories & warehouses to create effective screens for Cold Stores, Welding Bays and Food Processing Facilities for temperature control, hygiene, dust control and bird protection.

BENEFITS

Heat Retention
 Easy Access
 Bird Protection
 Reduced Cross Contamination
 Transparent strips allow visibility and light through
 Reduced Draughts but allowing air circulation
 Restricts the effect of inclement weather on external openings.

AVAILABLE AS 'SUPPLY ONLY' OR 'SUPPLY AND INSTALLATION'

FANTASTIC RANGE

TRANSPARENT STRIPS

Standard Clear Plain	for General Purpose Applications
Clear Double Ribbed	Heavy duty impact grade
Polar Strip (+25 to -25°C)	for sub-zero applications such as Cold Stores and Freezers
Polar Double Ribbed	Heavy Duty impact grade in sub-zero areas
Anti-Static Strip	to prevent electrical discharge in Clean Rooms and Data Storage
Perforated Strip	for ventilation in Commercial Kitchens and confined working areas

COLOURED STRIPS

Blue, Yellow, Red & Black
 (Non-standard Colours available upon request)

SPECIAL PURPOSE

Red Marker Strips	To define the opening
Green Welding Strip FR	For Welding Bays – Fire retardant – reduces welding flash.
Opaque Strip Grey & Black	Blackout for security
Frosted Strip	Partial transparency
Yellow Anti-insect Strip	Repels insects in food production areas

SIZES

100mm to 400mm wide
1mm – 4mm thick
Roll Lengths – 50m

TWO FIXING OPTIONS

FULLY STAINLESS 'HOOK-ON' SWINGING HEADGEAR SYSTEM

Recommended for Low Level Internal and Pedestrian Access.
Ideal for Pallet Trucks and small Carts.
Swinging Headgear allows ease of access through the openings.

Very easy to fit – simply fix the track at the correct height and hook on the strips.

ALL STRIPS SUPPLIED CUT TO SIZE FULLY PREPARED WITH THE HOOK-ON HEADGEAR RIVETTED IN PLACE.

FULLY ALLUMINIUM 'BOLT-ON' SYSTEM

Static Strips for large External Openings to withstand the rigours of weather.
Recommended for Forklift Truck traffic and heavy equipment.
Heavy Duty Ribbed strips are recommended to withstand high levels of wear and tear.

BESPOKE SOLUTIONS

Union specialise in specifying PVC screens to divide and segregate large areas, cordon off bays and create booths inside factories and warehouse.

Strips and Headgear mounted on independent track allow sections of strip to be easily withdrawn from the opening when totally clear access is required. These can be configured as a Single Section, Bi-parting or a number of overlapping sections.

CONTACT US FOR PRICES AND ADVICE.

What is the basic information we need to quote?

- A Photograph of the Opening is Essential
- Location: Internal or External
- The Clear Opening Size: Width and Height of the opening or area to be covered.
- Details of the terrain: e.g.. White Wall, Block, Brick.
- Fixing Face for the Track: e.g. Concrete/Wooden Lintel, Steel Beam.
- Type of Traffic: e.g. Pedestrians, Pallet Trucks, Forklift Trucks
- Special Requirements: e.g. Anti-insect for food environments, Polar grade Cold Stores.
- SUPPLY ONLY OR INSTALL
